

# The Issue is never about the Law

---

The issue is not if Canada is a Corporation or not; nor is it about law. The issue is how do we want to live? We all have dominion over all the earth, even without the Bible telling us that, we are all part of the whole, thus we are not separate from all that exists we are part of all that exists. When we look to a Country or anything outside of ourselves to extend authority to us, we have relinquished our dominion, which means to Rule, thus authority, and become a slave. It matters not from that point on what rights and freedoms we enjoy from an external source, for we do not control it. The control mechanisms can be very minute to as tyrannical as they are today; the point is if we don't control the mechanism that generates the law, then we are slaves to the external authority. Thus either we all share in authority and thus ruler ship equally and put our trust into the Universal mind to generate the Karma as it

naturally does or we break that unnatural cycle to create more cycles that will teach us to trust the Karma that comes from the Universal Mind. The more we ignore it the more pain we cause to ourselves. It is out of ego and self that we cause unnatural and harmful things to happen to us.

Thus it is the realization that we are all in part God and what we do to others we do to ourselves.

In terms of Canada, Canada is not defined as being on the earth as are all Countries, States, Provinces, and Cities etc.

The Pope holds Allodial Title to the earth as the emissary to LORD God (Satan) as all property is a thing of the imagination. Thus all that exist as separate from the whole are considered to be things. Thus we have corporate courts that make judgments on things. It is taking an imaginary world and overlaying it upon the natural world. This is why in the Koran; Allah is defined in the first book, second line as the Lord of the Worlds. Allah is not God, but an imaginary God that rules over things and thus has created his laws through yet man, Muhammad; to keep those living things we call human beings in line.

In truth we do not know who or what we are. However we are part of all that exists. Infinite Love that is self aware as a droplet and an Ocean within an Illusionary reality decoded by these bodies we call human beings. Thus being infinite, we are experiencing a duality of finite as well. So the finite dispenses

with the reality of the infinite only to cause a lot of pain and sorrow. Thus we must be let free of this prison by sharing our authority equally and living by the Law of One, in that we are all equal and the same.

If you examine all the Legislation, Oaths etc. You will not find one mention that a person is defined as a man created as male or female by God. Yet most Oaths will end with So help me God, thus stating that we are One God. No one can say that they are God above others, when we are all the same. Some may hoard knowledge and be able to do things that are supernatural, but as much as they are doing it, we are experiencing it and thus are co creating it with them.

When you go to court you assume it is a court, however that is merely hearsay. Nobody in the court can prove that they are who they say they are. They have overlaid a world upon themselves in a great acting show. They can only point at fictions to support their claim of being an actor. When in truth nobody can truly say who they are other than they are simply part of all that exists.

All legislation is manmade. It is mans attempt to be Supremely God rather than all be in part God equally, which is the truth. In truth there is no law for we all share in dominion equally. Truth has no illusions, but illusions have many lies and laws to support the illusion. The illusion cannot exist in truth.

This is where my research has led me with some results with CRA and the IRS along with a few other interesting things. The problem is getting the Government to listen. If you want something from them you are usually ignored. If they are trying to get you to pay taxes you can at least talk to the IRS or CRA guys and they listen. As far as the Courts go, they are there to make money on summary judgments in admiralty and they don't really care what you have to say as long as they can put on something that resembles a dog and pony show called a trial. I am hoping correct this in the near future though.

Rob
